Hi Greg, yes thankfully all of the information was retained. I think the submission was held up because the action letter upload did not go through.

I'm working on entering ND's WQS submission into WATA right now.

Thanks!

Hi Holly,

It looks like you got everything in. <https://wata.epa.gov/wata/wata4/index.cfm?submid=11640>

Thanks!
Greg

Hi Greg, I just entered the SD WQS approval letter in WATA and hit "submit" but did not receive a message indicating that the information has been entered. Also I clicked on the Action letters column and did not see the entry. I hope it's just going to take time. If not, I'll reenter the information on Monday. I just wanted to let you know.

Thanks,
Holly

I think you can add the memos whenever it's available. There's no rush though.

Have a great weekend too!

Thanks Greg. Phew!

I'll add ND's WQS submission either today or Monday. It came in on 6/18/21 so will just barely meet the 10-day entry requirement into WATA.

Also, do you know whether folks typically add ESA Section 7(d) memos (prior to completing BEs) into WATA?

Thanks - and have a great weekend!
Holly

Hi Erica, yes, the approval letter was signed today. And your email is quite timely as I was just reviewing the instructions in WATA on adding an action letter. I will update the SD WQS submission shortly.

Have a nice weekend!

Holly

Holly,

Greg pinged me for the monthly measures check-in and was asking about whether we think we'll hit the 60 days on the 4/27 SD submittal. I know you had it well underway, but can you please provide an update here so Greg can update his tracking in anticipation of our monthly measures check-in with Deborah next week? I'll be working only half days next week so I thought it would be most efficient to just connect you and Greg directly.

Thank you!

-Erica
